Fleming's 1925 Farm and Live Stock Almanac

Thirty Years ago Dr. William J. Fleming on his ranch in Montana, observed from his own and his neighbors' experience that Lump Jaw in cattle was causing very serious losses. After much patient effort and personal experimenting a remedy now known as Actinoform was developed, which successfully combated the disease.

At first this preparation was used only on the Fleming Ranch, but wishing to assist his neighbors, Dr. Fleming gave small quantities to various people. The results were so satisfactory that very soon, those asking for Actinoform, or Lump Jaw Cure as it was then called, became so numerous that it was necessary to sell the remedy. After this it was not long before Fleming's Lump Jaw Cure was extensively used in that district and then Dr. Fleming conceived the idea of giving every farmer in the United States the advantage of his discovery. He came to Chicago soon after and with the aid of his brother established in the Stock Yards a business for the manufacture and sale of the lump jaw remedy. Things were difficult at first, but gradually by hard work, fair dealing and persistence, the business was built up to its present-day size and prestige.

With our present nation-wide distribution and large list of Veterinary Remedies, we have maintained the same high standard of research and experimental work, manufacture and sales policy, that was laid down at the very beginning of the business.

The real proof that our principles have been right is seen in the steady increase of our friends and satisfied customers. Fleming's Remedies have and will be sold under a positive guarantee of satisfaction or money refunded. We have never refused to make a refund, as we never doubt the honesty of our customers.

It has been our pleasure for many years to mail our friends an Almanac. We have endeavored to incorporate in this book articles, calendars, and information that will be of real, every-day assistance to the farmer and at the same time give him in an attractive form, complete information regarding Fleming Remedies. No expense or pains have been spared in the preparation of Fleming's 1925 Farm and Live Stock Almanac. We feel sure it will please you, and we shall be more than glad to have your opinion on this year's book.

Fleming's Guaranteed Veterinary Remedies are for sale in many hundreds of retail stores throughout the country. In many cases this will make the purchase easier, but if you prefer you may always send your order direct to us. When ordering direct, please send remittance for the proper amounts; drafts or money orders are the best. Otherwise it will be necessary for us to send the shipment C. O. D. as we do not open accounts of any kind.

You should always feel free to call on us when we can assist you with a case. Our Veterinary Advice Department is for your use—absolutely free of charge, and we can almost always offer valuable advice from our years of experience. Write a clear, detailed and complete account of the case giving you trouble. We can then advise you more intelligently and save time by not having to ask for more information. Let us hear from you often and help you in every way possible. We are indebted to our friends for our success and we want to pay the debt with service, and advice cheerfully given.

Fleming's Remedies Keep Your Stock Sound

SPECIAL DISCOUNT OFFER

For every \$5.00 remittance we will send you \$6.00 worth of our remedies. For \$10.00 we will send \$12.00 worth, etc. However, we cannot allow a discount on orders for a single item listed at \$5.00 or more; but any \$12.00 order will receive the regular \$2.00 discount, \$18.00 order, \$3.00 discount, etc.

PRICE LIST

All prices include delivery charges except those on Stock Dip and Fly Repellent. These prices are F.O.B. Chicago and shipments are sent, charges collect, by freight or express. They cannot be mailed.

Dairy Cows On Official Test

To obtain high production and thereby a successful test, there are several fundamentals which must be adhered to. In the first place, the cow herself must be a good one; otherwise the dairyman's time, labor and expenditure of money, are wasted. It is quite remarkable, but as a matter of fact, dairymen not infrequently waste time on a cow incapable of being a winner no matter how well she is cared for. A very high class animal is necessary to make a successful test and previous trial testing of less intensive kind should be conducted with animals that are not certainly in the championship class.

It is also absolutely essential that the animal be kept contented, and in the case of a high-bred dairy animal, this does not consist merely of giving her enough to eat and a good stall to occupy. Finally the feed given must be of the proper sort and just right in quantity.

If dairymen would entirely eliminate from their minds the idea that a cow is a "milk machine," the results obtained from test cows would be much more satisfactory. Just to refrain from whipping such an animal and keeping her in good quarters, is not sufficient. To be truly contented, she must have a great deal of affection from everyone who comes near her. Furthermore the fewer people taking care of her, the better she will do. Spend a short time each day "babying" your test cow; the reward in additional pounds of milk per year will be quite surprising.

It is well to begin feeding the test ration some weeks before the animal comes fresh. By this, is not meant she should receive the full amount, but that the quality and kind of feed given should be the same as will be used during the test period. Some feeders give a dose of salts a short time before calving, and apparently have good success with this practice, but it must always be remembered that unless intelligent care is exercised, there is some danger of causing abortion by giving a physic.

A cow on test must have sufficient feed, but must not be overfed. No rule can be established as to the amount of feed any particular animal requires. This can only be determined by very close observation of each individual case. Some feeders change the food on test days, but there appears to be no logical

reason for this. If an animal is doing well on a certain ration, why change to something else, right at the time when you want the biggest production possible? Always remember that a cow is temperamental, especially a high bred animal and any departure from her regular routine is likely to cause nervousness which will be immediately reflected in the milk flow. On the test days treat her just the same as you have been doing all along.

The cow on test must have a well balanced ration; otherwise she cannot maintain herself and give a large quantity of milk. The proper proportion of protein matter may be obtained by feeding alfalfa hay and a good concentrate in the grain, such as gluten, linseed oil meal, distillers' grains or cottonseed meal. Minerals are essential to a cow at this time, and these can be secured from leafy alfalfa hay, and by keeping a mixture of equal parts steamed bone meal, ground limestone and salt in the feed box.

Good bulk, which is very important, can be obtained with distillers' dried grains, wheat bran, etc. However, the feed must be palatable, and to be so, succulence is necessary. This is easily secured by feeding wet beet pulp mixed with a little molasses, and small amounts of silage; in the summer green alfalfa is best.

Overfeeding is an evil which must be rigorously avoided, not only will the result of the test be poor if the cow is overfed but it is possible to ruin a high grade animal by so doing. A guide that can be safely followed is to see that the test cow always wants more to eat; never give so much that part of the feed is left in the box or manger because she can't eat any more. On the other hand keep her in fine flesh and the milk flow up to the maximum. All these points must be determined by experiment.

Feeding a very rich ration is probably a more satisfactory policy than giving larger quantities of less concentrated feed. In the final analysis, if a feeder arrives at a satisfactory ration after careful experimenting and sticks to this, the cows under his care will remain in better condition and produce more satisfactory results than can ever be obtained by frequently changing the feed.

HOW TO USE THE BREEDING TABLE

Simply take the day of the month in which an animal is bred and follow the line to the right. The first column will give the date a mare may be expected to drop her foal, the second is the date a

cow will likely calve and so on.

The date will not always be exact. Individual animals differ somewhat, but the date will be found to be approximately correct.

Save Your Cattle — with **ACTINOFORM**

There is only one remedy or treatment uniformly successful in overcoming lump jaw—that is, Fleming's Actinoform. Thirty years of constantly increasing use of the remedy proves this a true statement.

Lump jaw is a non-contagious disease which may appear in your herd at any time. It will never "cure itself," but it can be and is successfully handled with Actinoform.

If you have a case of lump jaw now, send your order at once. Treatment is simple and inexpensive. Complete and easily understood directions accompany each bottle. If you are in doubt about any case, write us and we will be glad to offer assistance. Prompt treatment saves much time and labor.

Price—\$2.50 per bottle postpaid.

Fleming Bros:—I have been using your Actinoform for twenty-five years and have been very successful with it.—Chas. E. Jones, R. F. D. No. 1, Iantha, Mo.

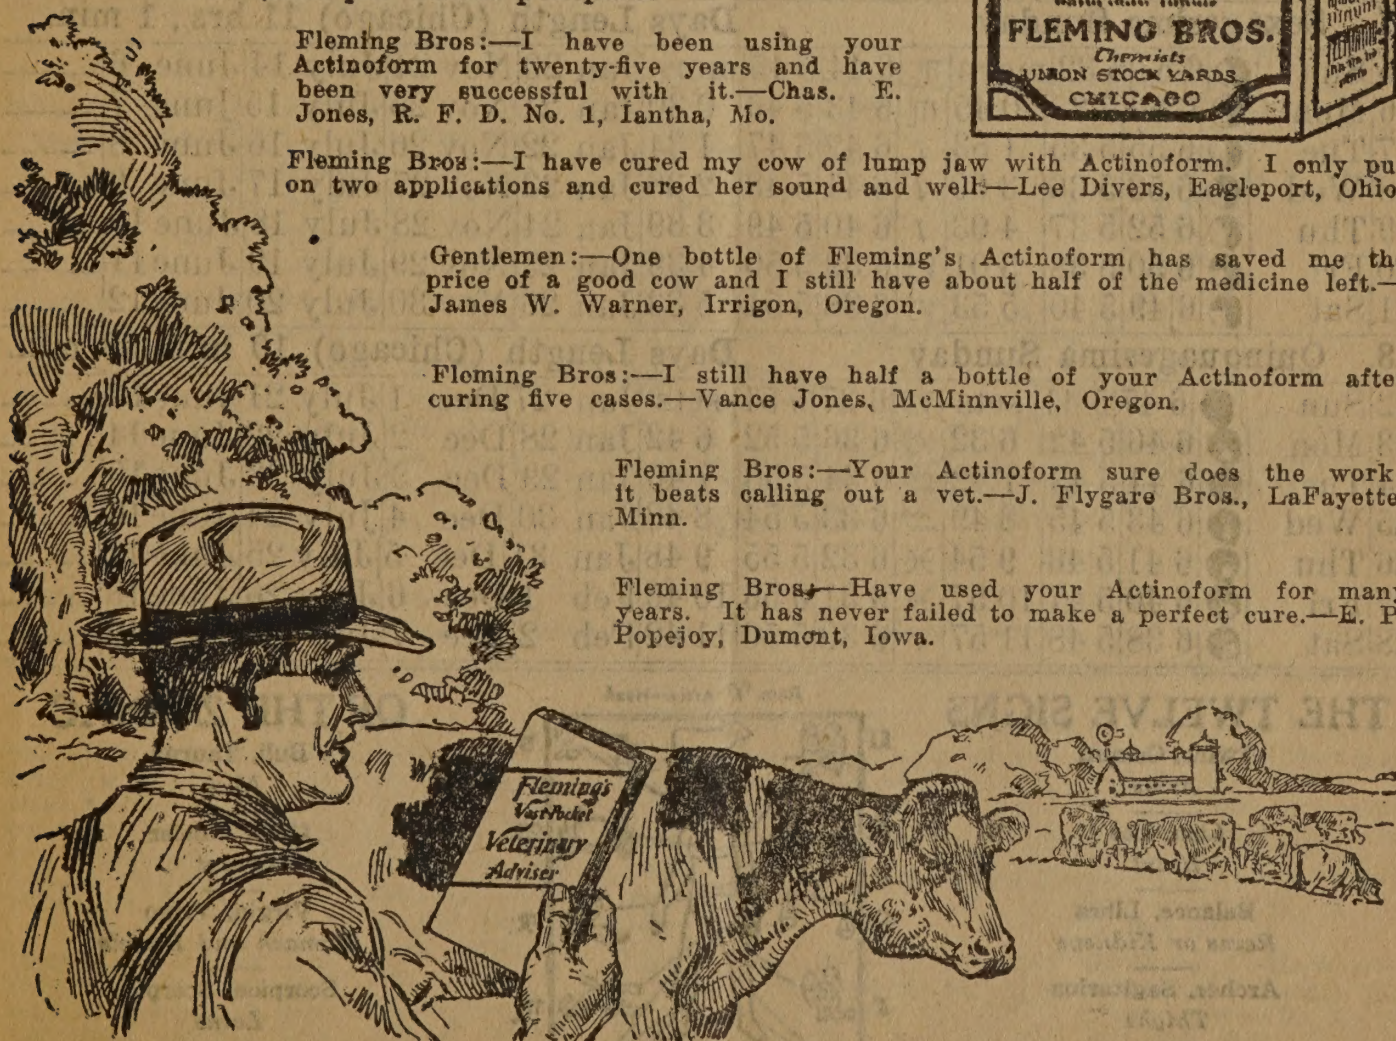

Fleming Bros:—I have cured my cow of lump jaw with Actinoform. I only put on two applications and cured her sound and well.—Lee Divers, Eagleport, Ohio.

Gentlemen:—One bottle of Fleming's Actinoform has saved me the price of a good cow and I still have about half of the medicine left.—James W. Warner, Irrigon, Oregon.

Fleming Bros:—I still have half a bottle of your Actinoform after curing five cases.—Vance Jones, McMinnville, Oregon.

Fleming Bros:—Your Actinoform sure does the work; it beats calling out a vet.—J. Flygare Bros., LaFayette, Minn.

Fleming Bros:—Have used your Actinoform for many years. It has never failed to make a perfect cure.—E. P. Popejoy, Dumont, Iowa.

CHARTS WHICH HELP YOU LOCATE ANIMAL AILMENTS

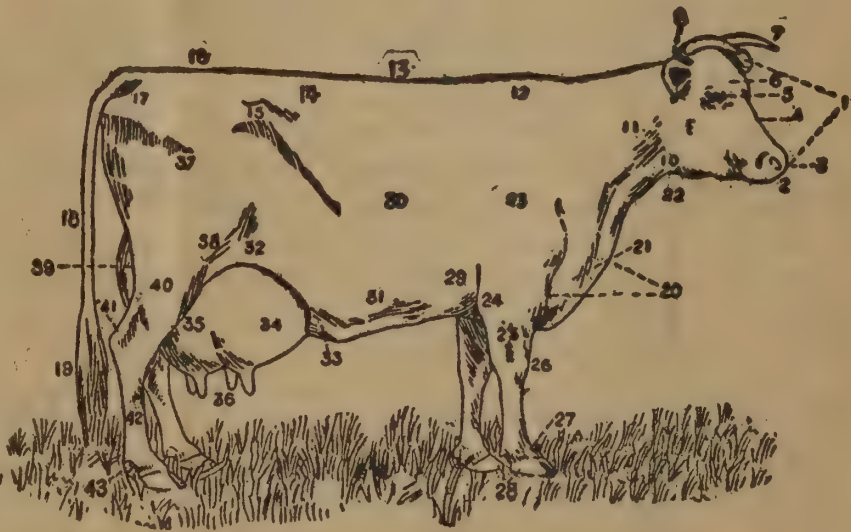

The purpose of this diagram is to show the approximate location of the ailments and blemishes named. To present in print the actual likeness of a blemish as it appears upon a horse is practically impossible and has not been attempted. On another page of this almanac brief mention is made of a number of the blemishes here indicated, and for more complete information we refer you to Fleming's Vest-Pocket Veterinary Adviser. We have remedies for treating all the ailments named on this diagram, and for others not mentioned here. If you will read this Almanac through you will obtain a very good idea as to what Fleming's Remedies are for and what they may reasonably be expected to do.

The purpose of the diagram is to show the various parts of a cow, with the correct name of each. Actinomocosis, usually known as "Lump Jaw," or "Lumpy Jaw," is one of the most severe ailments affecting cattle. It almost

surely yields to treatment with "Fleming's Actinoform," which has for over 30 years been known as "The Farmers' Reliable Lump Jaw Treatment."

The numbers with the following descriptive matter correspond with the numbers on the diagram: 1—Head. 2—Muzzle. 3—Nostril. 4—Face. 5—Eye. 6—Forehead. 7—Horn. 8—Ear. 9—Cheek. 10—Throat. 11—Neck. 12—Withers. 13—Back. 14—Loins. 15—Hip Bone. 16—Pelvic Arch. 17—Rump. 18—Tail. 19—Switch. 20—Chest. 21—Brisket. 22—Dewlap. 23—Shoulder. 24—Elbow. 25—Forearm. 26—Knee. 27—Ankle. 28—Hoof. 29—Heart Girth. 30—Side or Barrel. 31—Belly. 32—Flank. 33—Milk Vein. 34—Fore Udder. 35—Hind Udder. 36—Teats. 37—Upper Thigh. 38—Stifle. 39—Twist. 40—Leg or Gaskin. 41—Hock. 42—Shank. 43—Dew Claw.

The diagram and enumeration of points are taken from the Fifteenth Report of the Bureau of Animal Industry.

SATISFIED USERS

Dear Sirs:—Your medicines are by far the most reliable I ever used during my 50 years of experience among horses.—William Allen, Crookston, Minn.

Dear Sirs:—I have been using your remedies for over 15 years and have had good success with them.—Wm. Wells, Gausdale Ky.

Dear Sirs: — I keep Fleming Brothers remedies at my barn all the time and have been successful in curing colic; sidebone, fistula, spavin and thoroughpin besides enlarged tendons and splints. I have recommended your remedies to others.—R. M. Barton, LaFayette, Tenn. R. L. Car No. 5.

Dear Sirs:—All of the medicines we have ever ordered from you have given us perfect satisfaction.—Robert M. Brownell, Fly Summit, N. Y.

Dear Sirs:—Have used your medicines for some time and can say that I find they will do all you claim for them.—Chas. Phillips, Kodol, W. Va.

Dear Sirs:—I find your veterinary remedies to be all that you claim for them and can highly recommend them to any one.—Irl F. Wirth, Mt. Carmel, Ill. R. No. 5, Box 62.

Gentlemen:—Have tried both Colic Mixture and Worm Capsules before and find them O. K.—Arie O. DeJong, Pella, Iowa.

ARMY PULLING TEST

The energy necessary to move the dynamometer used in these tests at Ft. Des Moines is equal to that required to start a load of 53,000 pounds on concrete pavement. A six-horse artillery team ex-

erted this tremendous energy in one of the trials. This same hitch developed a tractive pull of 3,600 pounds over a distance of 55 feet in 8 3/5 seconds, developing 41.86 horsepower.

Fleming's CHEMICAL HORNSTOP

-it saves torture and keeps
the horns from starting

"Don't See Why Any Farmer Would Do Without It"

writes Mr. J. M. McMahan of McLeansboro, Ill., just to let us know how well satisfied he is with our Chemical Hornstop.

To be perfectly truthful, neither can we understand why a stockman should prefer horns on his cattle and goats when they can be so easily and cheaply prevented with Fleming's Chemical Hornstop.

Chemical Hornstop is a thick paste which will not run and injure the surrounding flesh. With its use, dehorning can be accomplished at a cost of about 2 to 3 cents per head and fifteen minutes time. We absolutely guarantee the results. All that you have to do is to follow the simple directions printed on each tube.

Have Fleming's Chemical Hornstop on hand when your calves and kid goats start to arrive.

Dear Sirs:—I have been using Hornstop on my milch goat kids for several years with fine success.

Alex McMillan,
1221 White Ave., Knoxville, Tenn.

Dear Sir:—I am one of the first ones around here to use your Hornstop. Now all the neighbors use it and the drug stores handle it. We have got a smooth headed herd now and never will be without it.

Tony Hiess
Route No. 9, Chippewa Falls, Wisc.

Dear Sirs:—I have used Hornstop for six years and I recommend it to every one around.

George M. Williams, Elfrida, Ariz.

Dear Sirs:—I want to say your Hornstop is the grandest thing I ever struck I keep all the calves dehorned in my neighborhood now.

W. M. Lee, Lee, Ky.

Dear Sirs:—Wish to state that your Hornstop is certainly fine to use and has always been successful.

A. W. Sylva, Mojave, Calif.

Fleming's Tonic Heave POWDERS

**Keeps
Him in
Prime
Condition**

THEY DID THE WORK HERE

Dear Sirs:—I have used your Tonic Heave Powders for several winters and think they are a great system renovator for horses.

L. W. Brownell, Millwood, W. Va.

L. W. Brownell, Millwood, W. Va.
Gentlemen: — Fleming's Heave Powders are the best that I have ever used for a run-down condition in horses and mules.

P. W. Williams, Route No. 3, B
111, Hanceville, Ala.

Dear Sirs:—Your Heave Powders are great stuff. I cured my horse worth \$300.00 with them.

Foster Alexander, Cambridge

Dear Sirs:—I had a mare that had taken the heaves, so I sent her boxes of your Tonic Heave Powders, and they cured her.

Millard Yoho, Me

Dear Sirs:—Your Tonic Heave Powders have brought my horse back in fine shape. He no longer felt or looked like a sick horse.

F. J. Klein

Dear Sirs:—Please send me another box of your Tonic Heave Powders. Your product is truly wonderful.

August Kretz

Oregon.

The surest way to keep your horses from having indigestion, heaves, etc., is to feed them just the right thing, in the right quantity and at the right time.

This is next to impossible, however, and all animals need a good tonic and conditioner at some time.

Tonic Heave Powders will prevent in the first place and overcome heaves in the second. Give them a trial. You will be satisfied. Your money will be refunded promptly.

month. Postpaid.

Sweeny in
Your Young
Horses!*

Fleming's Sweeney Blister

Insures Relief

SATISFIED USERS

Dear Sirs:—I have used your Sweeny Blister and have cured as many as 18 horses this year. It is the best I have ever used.—J. H. Hamlett, Milton, N. Car. R. F. D. No. 1.

Dear Sirs:—I sent and got one bottle of your Sweeny Blister and cured a bad case of sweeny.—Lewis P. Thompson, Centerville, Tenn.

Gentlemen:—I wish to recommend your Sweeny Blister. Since I've used one bottle of it and the one bottle has cured seven cases of sweeny.—C. W. Howard, Hartzell, Mo., Box 14.

Dear Sirs:—I used a bottle of your Sweeny Blister on a colt that was badly sweenied and cured it perfectly.—Olin B. Allen, Burdett, N. Y.

Dear Sirs:—The Sweeny Blister I got from you stopped the sweeny in two applications and you can't tell that the mare ever had anything wrong with her shoulder.—Milburn Young, Denning, Ark.

Dear Sirs:—I ordered one bottle of your Sweeny Blister and by the use of it I have been able to cure twelve cases.—Dock F. Barker, Somerset, Ky., Route No. 2, Box 73 G.

There is absolutely no reason why so large a number of horses should be ruined each year by "sweeny."

This condition is brought about by an injury or sprain of the muscles of the shoulder or hip, resulting first in a swollen, feverish condition of the part, and later a shrinking and wasting of the muscles.

Fleming's Sweeny Blister is absolutely guaranteed to relieve and overcome this condition. The percentage of failures to do so is less than four tenths of one per cent out of many thousands of cases treated.

Full directions, easy to follow, accompany every bottle and we are more than glad to give you any special advice you may desire.

The price of Fleming's Sweeny Blister is \$1.00 a bottle postpaid; a remarkably low price to save a hundred dollar colt!

Fleming's 1925 Farm and Live Stock Almanac

Fleming's COLIC MIXTURE

99⁹⁹/₁₀₀%

SUCCESSFUL

SATISFIED USERS

Dear Sirs:—Enclosed find money order for \$1.00. Please send me one bottle of Fleming's Colic Mixture. I find it never fails to cure, and my neighbors are always after it.—B. H. Prideaux, Carter, Mont.

Dear Sirs:—I used your Colic Mixture last year with perfect success.—Luther Stephens, Lamesa, Tex. R F. D. No. 2, Box 76.

Dear Sirs:—I have used a bottle of your Colic Mixture and it sure is fine.—C. H. Wall, McAdoo, Texas, Star Route.

Dear Sirs:—Your Colic medicine is a sure cure for horses.—G. C. Fitzgerald, Burns, Oregon.

Gentlemen.—Your Colic Mixture is surely some great dope.—Wm. H. Zahn, Kangaroo Lake Farm, Baileys Harbor, Wisconsin.

Dear Sirs:—I have used your Colic Mixture and it sure does the work in a hurry.—W. E. Roberts, Coulterville, Ill., Route No. 4, Box 12.

Dear Sirs:—I can truly say I have never used anything better than your Colic Mixture.—P. D. Troublefield, La Rue, Texas.

There is one important remedy that everyone who works horses should have immediately available at all times—a reliable colic medicine.

The story told by "99 99/100 Successful" is the very best argument we can advance to persuade you to keep Fleming's Colic Mixture on hand as a safeguard against colic losses.

Always remember that there is seldom time to prepare a colic medicine or call the Veterinarian when one of your horses has colic. Frequently the attack comes during the night. How much easier it is at that time to measure out the dose from a bottle of Fleming's Colic Mixture, all ready to use, than to employ any other means of relief. Especially when you can be sure that the animal will be relieved and all danger of losing it eliminated.

If you do not have our Vest Pocket Veterinary Adviser, write for your FREE copy today. It tells how to diagnose the different forms of colic and how to distinguish colic from inflammation of the bowels. These things are important for right treatment.

Fleming's Colic Mixture, \$1.00 a bottle, postpaid. Simple to use—assured results.

Fleming's 1925 Farm and Live Stock Almanac

Fleming's FISTOFORM

for **Fistula,
Poll Evil, Quittor
and Thrush**

Many thousand stockmen have saved their horses from fistula or poll-evil with Fleming's Fistoform. It is done every day and you can do the same thing. So easy and sure is the treatment that many of our customers buy horses affected with these diseases, fix them up sound and well with Fistoform, and resell them at a large profit.

Sometimes it is said that fistula is "incurable," but this is not true. A case may have a terrible appearance and the hope for recovery seem very small, but never let that discourage treatment with Fistoform. For many years we have been advising and assisting our friends to bring just such severe cases to satisfactory termination. Give us the opportunity to help you with any case you may have. Fistoform will do the work—we guarantee it.

**Fleming's Fistoform \$2.50 a bottle Postpaid.
Fistula Syringe 50 cents.**

FLEMING'S FISTOFORM

Fleming Bros.—I cured a case in about sixty days with your Fistoform.—M. J. Cleek, R. F. D. N. 1, Gladstone, Ill.

Fleming Bros.—Your Fistoform is a success, very simple to treat and the results are wonderful.—Paul Moorehead, 80 So. Main St., Ennis, Texas.

Fleming Bros.—Your Fistoform cured a mule for me in two weeks that had been running for thirteen months.—J. P. Ellis, Citrus Grove, Texas.

Fleming Bros.—I think your Fistoform is just wonderful. Cured a mare of poll evil with only half a bottle of medicine.—Jos. Gregson, Red Bud, Ill.

Fleming Bros.—I have cured two cases of fistula with your Fistoform.—O. A. Williams, Thrift, Ga.

Fleming Bros.—I cured my mule worth \$250.00, with your medicine; sure proud of it.—Roy Dickson, Route No. 3, Fairmount, Ill.

Fleming Bros.—Your Fistoform is a wonderful remedy. A part of one bottle cured a case of poll evil for me.—Mrs. W. A. McElroy Dunlap, Calif.

(Continued From Page Fourteen)

bought small receiving sets and are enjoying the musical programs broadcasted as well as obtaining valuable market information, and keeping in touch with prices on the products they have to sell. Very reliable information on farm problems is being broadcasted by the American Farm Bureau Federation.

It would appear from these facts that the radio receiving set is going to make it much easier for the farmer to market his products advantageously this fall and winter, besides having first class musical entertainment, political speeches, news items, etc., brought to his home.

Use Fleming's FLY REPELLENT

CONTENTED COWS GIVE MORE MILK

Dairy Cattle that are continually worried by flies and other insects, never give so much milk as peaceful unirritated animals, and, besides they are much harder to milk and handle at all times.

Horses, switching and stamping at flies, throwing their heads up and down to rid themselves of these pests, are nervous, irritable and never able to work as well as animals, untroubled by insects.

Undoubtedly every one will agree to this—but the question is what can be done to better the condition.

Two years of experience on our part has proved that Fleming's Fly Repellent will do the work in proper shape. This preparation contains the best ingredients for repelling flies; it will not stain, blister the hide, not injure the hair in any way. It is pleasant to use, not sticky, and above all will keep away insects from 10 to 16 hours after the second spraying.

A trial is all to your advantage. It can do no harm and if you are unsatisfied, your money will be returned upon request.

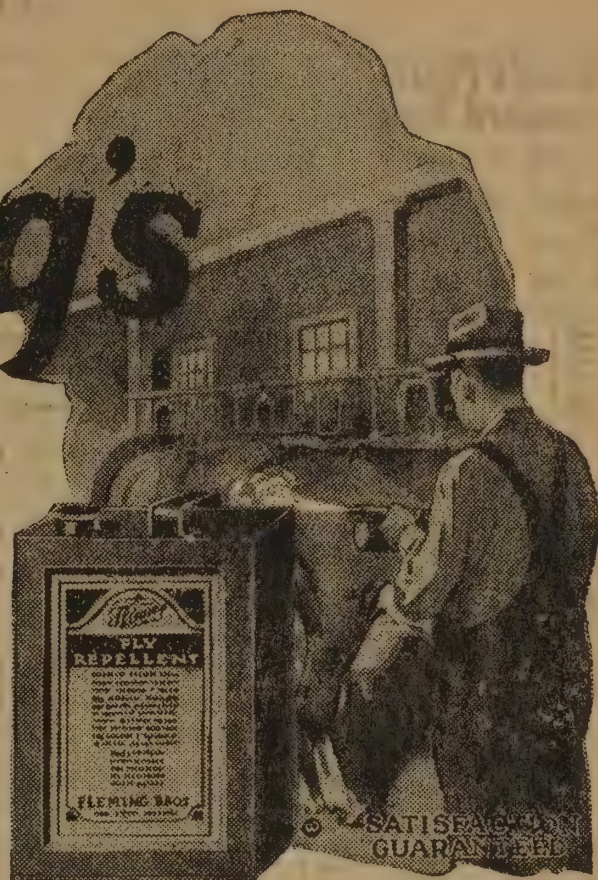

1 gallon—\$1.50 F. O. B. Chicago—Not Mailable.

5 gallons—\$5.00. Sent by freight or express. Charges Collect.

10 gallons—\$9.00

Barrels—80c per gallon

Fleming's Fly Repellent Makes Contented Cows.

INCREASING THE VALUE OF MANURE FERTILIZER

The greatest soil fertilizer obtained from manure, is nitrogen which is in combination with the ammonia, so plentiful in manure. Ammonia, however, escapes readily into the air and carries the valuable nitrogen with it.

By treating manure with commercial gypsum, the loss can be largely avoided. Gypsum when brought in contact with the ammonia results in a product called ammonium sulphate, which is really more valuable than the ammonia, as it

contains in addition sulphate sulphur, an extremely valuable plant food.

The importance of retaining all the fertility in manure is apparent when it is realized that about one-fifth of the fertilizing value in the feed consumed by animals is retained for muscle, blood and bone building. Consequently the plant-food value of manure is less than 100% and the land decreases in fertility a certain amount each year. If no effort is made to overcome this loss, eventually the land will become practically sterile.

MORNING AND EVENING STARS

Mercury will be Morning Star about January 17, May 16, September 10 and December 31; and Evening Star about March 30, July 28, and November 22.
Venus will be Morning Star until April

23, then Evening Star the rest of the year.
Jupiter will be Morning Star until July 10, then Evening Star the rest of the year.

FLEMING'S VETERINARY EYE LOTION

Reasonable care and the free use of Fleming's Veterinary Eye Lotion, will prevent over 90% of the blindness of live-stock.

Loss of sight by animals is almost always due to ordinary inflammation, caused by foreign substances getting into the eyes. Prompt treatment with Fleming's Veterinary Eye Lotion will prevent bad results in all such cases.

Moon blindness can be almost entirely relieved with this preparation.

Every bottle is guaranteed and accompanied by detailed directions for treating each kind of case.

50 cents a bottle, postpaid.

Gentlemen: — Enclosed find money order for another bottle of your liniment. I am using it for rheumatism on myself and it gives me great relief. R. B. Mills, Sulphur Springs, Ga., R. F. D. No. 1.

Dear Sirs: —I have used several bottles of your General Liniment and find it very good liniment. J. R. Morgan, Guys Mills, Pa.

Gentlemen:—I have cured my fine horse with your Eye Lotion. The neighbors said that in two weeks the horse would be blind. I cured him in a week. Corbett Smith, Starlight, Pa.

Dear Sirs:—Have received the famous Fleming Eye Lotion and am very thankful for it has saved my horse's eye. Fred Boehnke, Irma, Wisc.

Dear Sirs:—I have used your Liniment and found it as good or better than you claimed it to be. W. C. Ward, Sugar Grove, N. Car. Box 41.

Dear Sirs:—Your Eye Lotion was just fine. It saved one of my mare's eyes. H. S. Gifford, Maysville, Ky. Route No. 2.

GENERAL LINIMENT

There is nothing else you can obtain that will do the work required of a liniment, in so quick and thorough manner as Fleming's General Liniment.

We firmly believe that this preparation is the very best that can be made and many of our customers write and tell us the same thing.

Fleming's General Liniment is effective for treating, sprains, swellings, bruises, old sores and rheumatism. The instructions included with each bottle give full particulars for use in each case.

This preparation is admirably suited for human use and many of our customers keep it always on hand for household purposes.

\$1.00 a Bottle—postpaid.

FARMERS' BULLETIN

The Department of Agriculture publishes hundreds of bulletins for the benefit of farmers and in most cases these are yours for the asking. The subjects covered range from comprehensive, easily understood articles on Hog

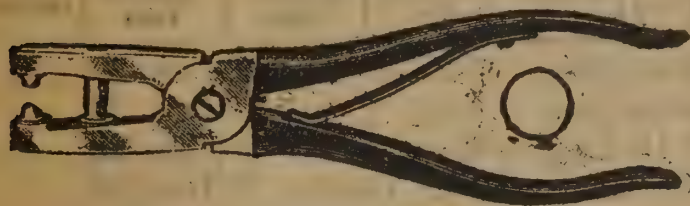

Cholera, for instance, to the best way to make strawberry jam.

Take advantage of Uncle Sam's knowledge of farm affairs. It is for your free use—address inquiries to Bureau of Publications, Dept. of Agriculture, Washington, D. C.

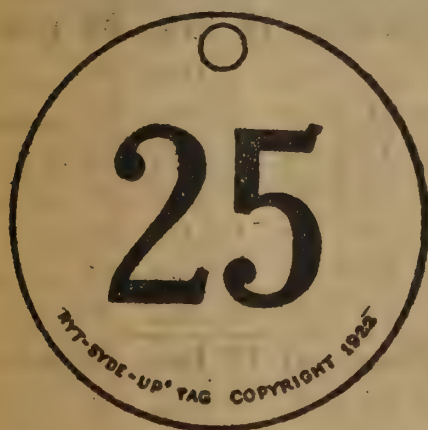

Farmers' Merchandise Supply Department

Identify Your Hogs, Sheep, Goats and Cattle with Ear Buttons of pure hardened aluminum, lightest on the market. Made in two parts fitting into each other, giving double strength. Name and address, (18 letters) may be printed on top of button and number on bottom.

Price postpaid, 25, \$1.40; 50, \$1.95; 100, \$3.40. Blank Buttons \$3.40 per 100.

Combined Punch and Plier makes application easy—\$1.40 postpaid.

LARGE ALUMINUM SALES TAGS

These tags are a necessity at a sale and are useful on many other occasions. The picture shows the actual size of tag, and numbers. Numbers are on both sides—always right side up.

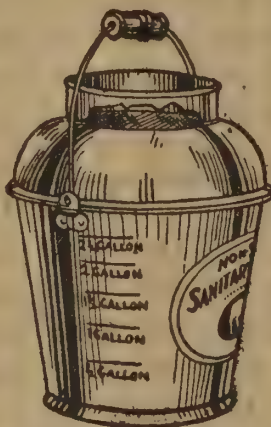

Furnished only in sets numbered consecutively.
Sent by mail—postpaid

HORSE VS. TRACTOR

Eight horses will handle a 320-acre farm and also consume a considerable quantity of grain, otherwise thrown on the market. Thus it is seen that by discarding horses the farmer loses the profit from horse raising, and also helps

flood the market with grain, lowering the price and impairing the productive value of his land. Before letting the horses go, these points should be considered.

FUNK HOG FARM

WORM CAPSULES

Don't Let the Worms Get These Little Fellows

Worms will kill many small pigs for you, unless you take prompt and effective steps to kill the worms!

Funk Hog Farm Worm Capsules are the best remedy we were able to find for this condition. For about ten years these capsules have been used by breeders with uniformly satisfactory results. They contain the most effective worm killing drug obtainable and a powerful cathartic to free the animal of the dead parasites. One capsule for weaned pigs, two for middle sized animals and three for the big ones.

We guarantee Funk Worm Capsules to get the worms or we will promptly refund your money. Follow the simple directions carefully and you will save yourself money time and labor—they are easy to give!

Dear Sirs:—I have used 100 Funk Hog Farm Worm Capsules and I have had good luck with them and find lots of worms.

W. J. Bell, Algona, Ia., R. R.

Dear Sirs: — Please send by return mail 100 Funk Hog Farm Worm Capsules. They certainly do the work.

Chas. Zimmerman, Warsaw, Ind. Rout No. 3.

Dear Sirs:—We have used Funk Hog Worm Capsules before and find that they do the work and are far superior to others sold on the market at a higher price.

Carl S. Schneider, Sigourney, Iowa.

Dear Sirs:—1 Fall Pig — 1 Funk Hog Farm Worm Capsule —Result, 56 worms.

Geo. Dohm, Girard, Ill.

Dear Sirs:—Having had good success with the Funk Hog Farm Worm Capsules in the past year or more I feel I can't raise hogs without them. C. W. Heaton, Munice, Ind. R. R. No. 5.

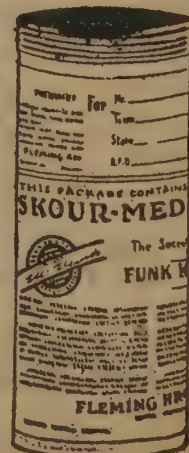

Dear Sirs:—Have used your Hog Worm Capsules with very good results.

Arthur E. Rhodes, Carpenter, Wyo.

~also SCOUR MEDICINE

One of the most destructive hog diseases, scours, can be prevented with Skour-Medicine. We offer you our popular sized package, enough for about two litters at \$1.50 delivered.

Prevention is always the best cure and you can prevent scours with Skour-Medicine. We absolutely guarantee the results. Send us your order today and have Skour-Medicine on hand ready for use when the next litter of pigs arrives.

Fleming's Spavin Remedies

SATISFIED CUSTOMERS

Dear Sirs:—Your Spavin and Ringbone Paste has cured every case I ever used it on with no exception, and believe I have cured, at least, 25 spavins with it in the last 10 years. Chas R. Penaluna, Hampton, Iowa, Fairview Farm.

Gentlemen:—I have used your Spavin and Ringbone Paste and am highly pleased with its results. J. F. Luke, Junction, Utah.

Dear Sirs:—We want to thank you for your Ringbone Paste. It has done fine. It cured my horse at once. J. J. Balezewski, Exeland, Wisc.

Dear Sirs:—The Spavin Liquid I ordered some time ago sure did the work. Have cured two horses. Jess Bandy, Gallia, Ohio, R. F. D. No. 2, Box 76.

Gentlemen:—I got one bottle of Spavin Liquid and I cured two bog spavins and one thoroughpin. Richard F. Cox, Newfield, N. Y.

Gentlemen:—I got some of your Spavin Liquid a few years ago and it worked like a charm. John Wilhelm, Whiteford, Md. Route No. 2.

SPAVIN LAMENESS CAN BE OVERCOME

Lameness from spavins, is probably the greatest single cause of loss to horse breeders. Fleming's Spavin Remedies used according to direction will overcome the spavin evil in a vast majority of cases. If one of your horses has a spavin write us a full description of the case; we will gladly recommend treatment and furnish you with the proper remedy, guaranteed to do the work.

Fleming's Spavin Liquid is guaranteed to overcome lameness from Bog Spavin, Thoroughpin, Splint, Curb and recent cases of Bone Spavin, Sidebone and Ringbone. It will not leave a scar.

Fleming's Spavin and Ringbone Paste is an entirely different preparation from the Spavin Liquid and cannot be used for the same purpose. The Paste is intended for the treatment of established cases of Ringbone, Sidebone and Bone Spavin, and it is absolutely guaranteed to overcome the lameness caused by these ailments.

Both the Spavin Liquid and Spavin and Ringbone Paste are \$2.00 per bottle post-paid. Each package contains explicit directions, but if you are in doubt write us. We can help you.

PERIOD OF INCUBATION

The period of incubation of poultry, varies as shown in the following table:

	Days		Days
Hen -----	21	Peafowl -----	28
Pheasant -----	22-24	Guinea fowl ---	26-28
Duck -----	28	Ostrich -----	42
Duck (Muscovy) 33-35		Goose -----	30
Turkey -----	28	Pigeon -----	17

The period of incubation varies so that a hatch may run one or two days over because of an accident during incubation or low temperature throughout that period, or it may come off earlier.

Flemings VELVETY SKIN

Keeps the
hands smooth
and white

Dear Sirs:—Your Velvety Skin is a wonderful cure for sore hands. I will advise anyone to use it. I find it will do just what you say. Miss Dorothy A. Feamster, Blaker Mills, W. Va.

Dear Sirs:—Please send me one more bottle of Velvety Skin. It is simply fine and am just out. Please rush me a bottle.

Joamie Morgan, Hartford, Ky.
Dear Sirs:—Please send two bottles of Velvety Skin. It sure is fine.

Dr. L. S. Lane, Plain City, Ohio
Dear Sirs:—Please send me one bottle of your Velvety Skin. It is the only lotion I ever found that was any good to my hands.

Louis Straub, New London, O.
Dear Sirs:—Send me two bottles of Velvety Skin which I find to be the best lotion I ever used on my hands.

Loius C. Richman, Union Mills, Ind.

Dear Sirs:—I consider Velvety Skin a wonderful preparation and one that will absolutely do all that is claimed for it.

J. S. Davenport, McMinnville, Tenn. Route No. 1

There is no reason why any one should suffer with chapped and roughened hands, when they can obtain Fleming's Velvety Skin.

Velvety Skin is more than a convenience to the house-wife and outdoor man. It is a necessity. Not only does it afford the pleasure and satisfaction of nice looking hands, but it certainly increases the ability to work by relieving the soreness from chap, irritated skin, sunburn, etc.

Send us your order today. The price is 50 cent a bottle, delivered to you, and if for any reason you are not satisfied, we will immediately refund what you have paid us.

COMPARATIVE WEIGHT OF DAIRY CALVES

The following table shows the normal weight of dairy calves by breeds. The ages are given in months and are valuable in determining whether or not an animal is gaining properly.

Success was obtained in weaning both Jersey and Holstein calves at three, four and five months, and almost normal gains were recorded when the calves were taken off a skim milk ration at an age of two months.

Age in months.	Holstein.	Jersey	Ayrshire	Short horn.
Birth	88	53	65	75

PERMANENCE OF CLOVER PASTURE

A 12-acre field of sweet clover in Kansas has been grazed for four years without reseeding. One year 60 head of cattle were pastured from April 1st to June

1st and 24 head for the remainder of the season. These cattle also had access to 22 acres of very poor blue grass pasture.

Fleming's Poultry LICE POWDER

*"Kills
Lice"*

A liquid lice killer cannot be easily used on poultry at any time, or on live-stock in the winter.

Flemings Poultry Lice Powder will prove absolutely effective in killing all parasites, and it will more than pay in eggs to have lice free chickens.

This is a fully guaranteed product and one which has given immense satisfaction to our customers. Let us have your order at once so you can get a maximum yield of high priced winter eggs.

I must say the Poultry Lice Powder I purchased from you was sure great stuff—Willard J. Williams, Germantown, N. Y.

2½ lbs., 85c.

Postpaid.

5 lbs., \$1.00

POULTRY MAXIMS

For general use the American breeds, Plymouth Rock, Wyandotte, Rhode Island Red, Java, Dominique, and Buckeye, are probably the best.

Standardbred poultry means uniformity of products. Uniformity of products means increased profits, if products are properly marketed.

Given the same care and feed, standardbred fowls make a greater profit than mongrels.

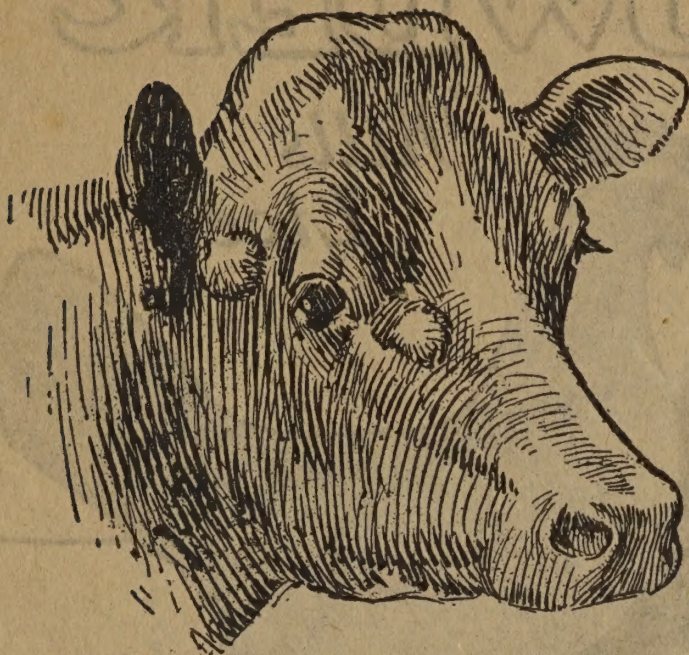

Subscribe for one or more good poultry papers.

Every poultry keeper who is interested in breeding poultry should have a copy of the American Standard of Perfection, published by the American Poultry Association, Fort Wayne, Ind.

It is urged that all farmers and poultrymen adhere strictly to the following principal rules in handling their poultry and eggs:

1. Keep the nests clean; provide one nest for every four hens.
2. Gather the eggs twice daily.
3. Keep the eggs in a cool, dry room or cellar.
4. Market the eggs at least twice a week.
5. Sell, kill, or confine all male birds as soon as the hatching is over, so as to produce infertile eggs. The male bird has no effect on the number of eggs produced.

WARTS CAN BE REMOVED—

Fleming's Veterinary Wart Remover is made for the purpose of removing, and preventing the re-growth of warts on live-stock. It is very caustic and cannot be used on human beings nor on the tender parts of animals.

It will do the work intended. We guarantee results.

\$1.00 a jar, postpaid

Dear Sirs:—Please send me one \$1.00 jar of your Wart Remover by return mail. I have used it before and it does just what you say it will do. John L. Eastin, Spottsville, Ky.
Dear Sirs:—Please send me four bottles of your Healing Oil. I can't get along without it.
Brice G. Brown, Independence, W. Va.

Dear Sirs:—I have been using your Healing Oil for six years and I cannot find anything to equal it any where.
C. B. Jones, Lewisburg, W. Va.
Route No. 2, Box 62
Dear Sirs:—Your Healing Oil is the best healing ointment that can be made. We sure think it wonderful.
Mrs. Otis C. Barber, Washington, Ind., R. R. No. 2 Box 99

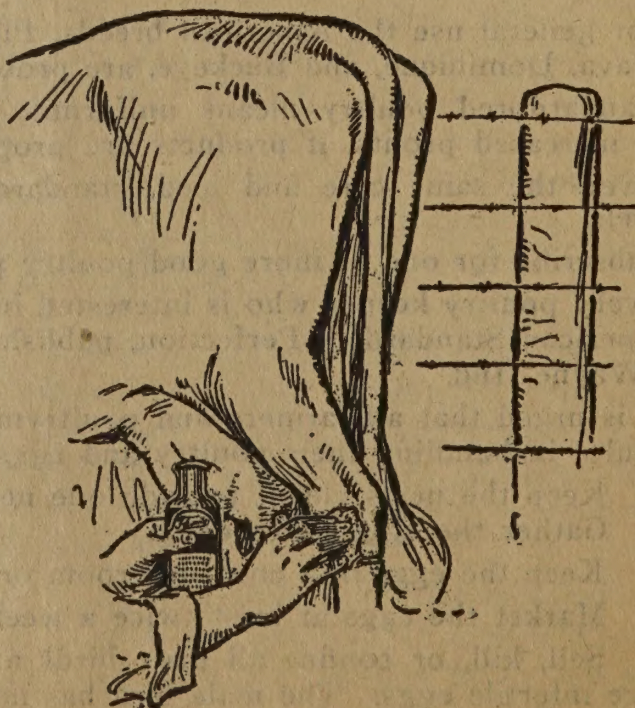

Dear Sirs:—The first bottle of Healing Oil did make a change in that old sore. I sure am thankful to you for it. That sore has been there for a long time and I never could get anything before that would do it a bit of good.
C. A. Miller, New England, W. Va.

Fleming's Veterinary Healing Oil

Animals are continually getting cut in the wire or scraping off the hide on a wagon tongue or barn door. Prompt treatment with Fleming's Veterinary Healing Oil will eliminate any possibility of infection and heal up a wound or burn in the quickest possible time. It is highly antiseptic and very soothing to the injured tissues.

Fleming's Veterinary Healing Oil is for human use as well, and has proved a valuable aid in many cases of burns and cuts. Have it on hand when trouble comes!

50 cents a bottle, postpaid.

FLEMING'S STOCK DIP *and* DISINFECTANT

FLEMING'S Stock Dip is a coal tar product prepared for dipping and dressing livestock, and for disinfecting stables, pens, etc., to kill parasites and germs, prevent disease, and keep your premises in a sanitary condition.

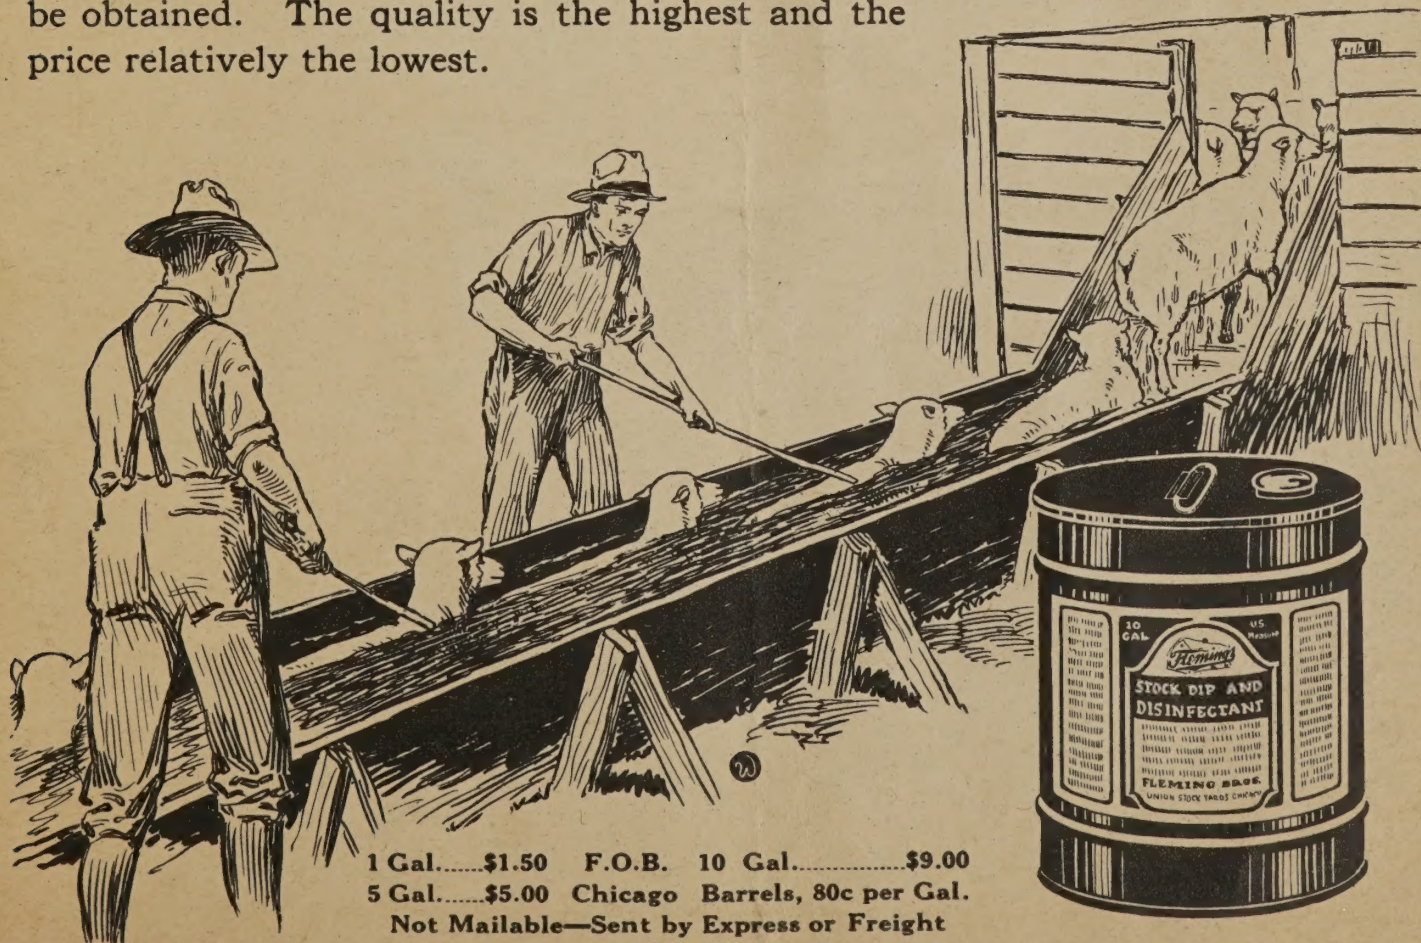

Fleming's Stock Dip is the highest quality product of its kind on the market. There is no other preparation which combines the same effectiveness and at the same time does not injure the hair, wool or skin of the animals.

Fleming's Stock Dip has a very high carbolic coefficient, 3 to 5, and will therefore make more effective dipping solution than other brands.

The cost of the dip is really the smallest part of the operation. If you use a cheap or injurious dip, you have lost your labor and perhaps injured your stock. If you use Fleming's Stock Dip, the job is properly done.

Fleming's Stock Dip and Disinfectant is unconditionally guaranteed to give satisfaction or money back. There are no "strings" to this guarantee. Your word goes!

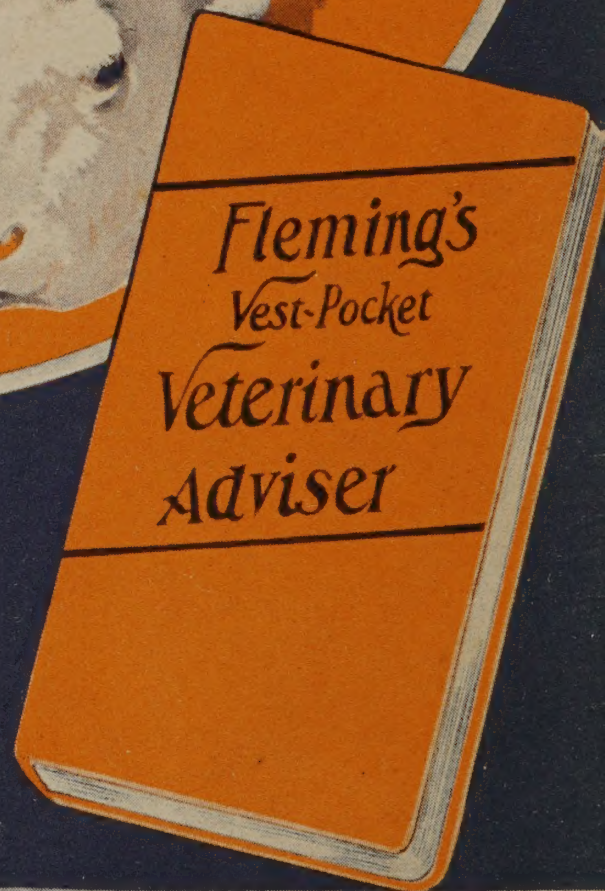

This preparation is the most satisfactory and economical general disinfectant for stables, pens, etc., that can be obtained. The quality is the highest and the price relatively the lowest.

1 Gal. \$1.50 F.O.B. 10 Gal. \$9.00
5 Gal. \$5.00 Chicago Barrels, 80c per Gal.
